U.S. Census Bureau *the Official Statistics* TM

Attention

Geographic Information & Land Information System Specialists!

- Do you need a quick and easy to use, desktop mapping system showing official census geographic boundaries down to census tract and block group level?
- Is the ability to locate EPA "brownsites," schools, public buildings or other important community sites a major consideration to you?
- Is surpassing Community Reinvestment Act (CRA) requirements and earning a superior ranking against competitors a priority for your company?

If you answered "Yes!" to any of these questions, then the U.S. Census Bureau has got the product to fill your needs...

INTRODUCING LandView® III

LandView® III is a significantly updated release of **LandView® II**, developed in cooperation with EPA to provide the public with information on hazardous wastes in their community. And, it provides census statistics for populations affected by these sites.

LandView® III is also useful for matching addresses to census tracts by displaying **official** 1990 census tract boundaries over the network of streets. As a map-based system, it permits coding of rural addresses, streets without numbers, and new construction.

LandView® III is a "must-have" tool for purchasers of LandView II, with vastly improved features and functions including a **new tutorial program and revamped Help files... updated street information from TIGER/Line® 95... enhanced EPA databases... upgraded thematic mapping & data querying capabilities... extended street search capabilities... enhanced population radius calculation... and much, much more!**

LandView® III is comprised of eleven CD-ROMs sold individually and as a set. The discs are currently in production and will be shipped to customers in early January 1998.

For further information including pricing for **LandView® III**, please call Customer Services at **301-457-4100** or access our website at <http://www.census.gov/geo/www/tiger>

Data Files

Data files recently released by the Census Bureau are listed below. They are sold by Customer Services (301-457-4100; TDD 301-457-4611) unless otherwise noted. Use form 2.

The cost of new files on computer tape generally is based on the file size, with the minimum charge being \$175. The files are offered on tape reels or tape cartridges.

Data files also are offered on CD-ROM. The price for a mass-produced CD-ROM, prepared for popular files, generally is \$150.

CD-ROMs also can be prepared on request for data files otherwise available only on tape reel or cartridge. The cost for such CDs is the same as the cost for the tape file. The CD files are ASCII copies in the same format as on tape, and they are not accompanied by software. Since the discs are specially prepared in response to customers' requests, orders take about 2 weeks. For further information about this service, contact Customer Services.

Files available on diskette ("floppies") for IBM compatible microcomputers also are listed.

An ever increasing variety of data files and product information (including this publication) can be accessed via the Internet. (See

"How to Order" section for more information.)

Technical documentation, included with each file order, also generally is available separately. The price varies.

Free *Data Developments* booklets provide brief descriptions of most files. They may be requested from Customer Services. Use form 2.

Looking Ahead

The products listed in this section are among those now in preparation and likely to be available

by the time you receive this issue. We have included prices and stock numbers (S/Ns) for printed reports if this information has already been furnished by GPO.

Ordering information for all the products listed here will be provided in future issues of MPA, or call 301-457-4100. Also, the Census Bureau's Internet site provides information online for ordering these products as they become available. See the "How to Order" section for more information.

direct you to the right source by specifying the form to use or specifying another office as the source.

As the forms indicate, both Customer Services and the Government Printing Office (GPO) accept phone or fax orders when you charge to VISA, MasterCard, or a deposit account. GPO also accepts the Discover card. Both offer express service for off-the-shelf products for an extra charge when you order by phone.

Generally, if you order 100 copies or more of a publication sent to one address, you may take a 25-percent discount.

Computer Files

To order data files, use order form 2 or order by phone or fax, unless the entry gives other instructions.

Technical documentation accompanies each file, or it often may be ordered separately, using form 2.

Files on computer tape are offered on tape reels or tape cartridges. The tape cartridges are IBM 3480 compatible (operable with StorageTek 4780 tape subsystem and Digital Equipment Corporation VAX TA90 subsystems).

When mass-produced, files on CD-ROM also are listed in the "Data Files" section earlier in this publication. Customer Services offers priority service for off-the-shelf

products for an extra \$25 fee when you order by phone or fax.

Other tape files can be produced on CD-ROM by special order for the price of the tape. See the discussion under "Data Files."

Some data files are available on diskettes for IBM and compatible microcomputers.

Internet Access

Many reports and data files are accessible, in whole or in part, through the Internet. You may reach our Internet site via these URLs:
